Bachelor of Computer Application Percentage :- 75.50%	Smt. C.Z.M Gosrani BCA College, Jamnagar [Gujarat] (2022-2025)
Std 12 th Percentage :- 60.14%	St Francis School, Jamnagar [Gujarat] (2021-2022)
Std 10 th Percentage :- 55.83%	St Francis School, Jamnagar [Gujarat] (2021-2022)

Technical Skills

Languages: Java, SQL, C#, PHP, JavaScript, HTML5, CSS3

Frameworks: Asp.net web form, React.js, Node.js, Bootstrap, Tailwind CSS, Express.js

Database: MySQL, MongoDB, SQL Server

Tools & Platforms: Git, GitHub, Postman, Firebase, Thunder Client, infinityFree

Projects

GoTrip – Travel & Holiday Package Booking System | ASP.NET Web Forms, C#, SQL Server, Bootstrap
Mar 2025 – Apr 2025 | [GitHub](#)

- Developed a web-based travel booking platform that enables users to explore, compare, and book holiday packages based on destination, travel dates, and package preferences.
- Built secure user authentication and dynamic package management features using ASP.NET Web Forms and C#.
- Designed and integrated a SQL Server database to manage user accounts, tour packages, bookings, and booking history efficiently.
- Developed an admin dashboard to manage travel packages, customer bookings, and destination details through a centralized interface.
- Implemented a responsive and user-friendly interface to streamline the booking process and enhance the overall user experience.

Job Portal – AI-Powered Recruitment Platform | MERN Stack (React.js, Node.js, Express.js, MongoDB)

Jun 2026 – Jul 2026 | [GitHub](#)

- Developed a full-stack job portal connecting recruiters and job seekers through a secure and user-friendly web application.
- Enabled recruiters to post and manage jobs, while allowing job seekers to search, apply, save jobs, and track application status.
- Integrated AI features including Resume Builder, ATS Resume Checker, Cover Letter Generator, AI Interview Practice, and personalized job recommendations.
- Built RESTful APIs using Node.js and Express.js with MongoDB to manage users, jobs, resumes, and applications efficiently.
- Implemented secure authentication, role-based access control, and a responsive React.js interface for a smooth user experience across devices.

NexaTech – E-Commerce Electronics Store | HTML, CSS, Bootstrap, PHP, MySQL

Aug 2024 – Oct 2024 | [GitHub](#)

- Developed a responsive e-commerce web application for purchasing electronic products with an intuitive and user-friendly interface.
- Designed and implemented product browsing, category-wise listing, product details, shopping cart, and secure user authentication features.
- Built the backend using PHP and MySQL to manage users, products, orders, and database operations efficiently.
- Created an admin panel to manage product inventory, update product details, and monitor customer orders.
- Utilized Bootstrap to build a responsive layout, ensuring compatibility across desktops, tablets, and mobile devices.

TechHevan – Electronic Shop Management System | Windows Forms (.NET Framework), C#, SQL Server

Feb 2026 – Mar 2026 | [GitHub](#)

- Developed a Windows desktop application to streamline electronic shop operations, including inventory management, sales processing, and billing.
- Implemented modules for product management, stock tracking, daily sales monitoring, and automated bill generation.
- Designed and integrated a SQL Server database to efficiently manage products, customer records, sales transactions, and inventory data.
- Built an intuitive Windows Forms interface to simplify day-to-day shop management and improve operational efficiency.
- Optimized data handling and reporting features to ensure accurate record keeping and faster business operations.

Certification

- Database Design - **Infosys springboard**
- Complete Front End Development Journey - **Infosys springboard**
- Prompt Engineering for Data Analysis Python, Pandas, ChatGPT - **Infosys springboard**
- Web Development with Node.js, MongoDB and Express - **Infosys springboard**
- Node.js - **Infosys springboard**
- ExpressJS Essential Training - **Infosys springboard**
- Frontend web developer Modern HTML CSS JavaScript - **Infosys springboard**
