SUMMARY

MCA student with strong foundations in Python, Java, Data Structures & Algorithms, OOP, DBMS, and SQL. Passionate about backend development and problem-solving with hands-on experience in full-stack web development, REST APIs, and database-driven applications.

EDUCATION

M.C.A. **2025 – 2027**
Marwadi University, Rajkot *Pursuing*

B.C.A. **2022 - 2025**
Darshan University, Rajkot *CGPA: 9.01 / 10*

SKILLS

Programming: Python, Java, C, C++, SQL

Backend: Node.js, Express.js, REST APIs

Frontend: HTML, CSS, JavaScript, React.js

Frameworks & Technologies: Firebase, JWT Authentication, Django (Learning)

Databases: MongoDB, SQLite, PostgreSQL (Learning), Firebase Firestore

Tools: Jupyter Notebook, Android Studio, VS Code, Git, GitHub

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, SDLC

PROJECTS

ProjectForge | *MERN Stack, MongoDB, Express.js, React.js, Node.js, JWT* **2026 – Present**

- Developed a MERN-based developer collaboration platform with skill-based project matching.
- Built REST APIs, JWT authentication, and backend workflows for project and application management.
- Designed MongoDB schemas and analytics dashboards for projects, applications, and match scores.
- Created a responsive React interface using Tailwind CSS and Framer Motion.

Nifty 50 Stock Market Data Analysis | *Python, Pandas, NumPy, Matplotlib, Seaborn* **January 2026 – March 2026**

- Developed a Python-based application to analyze historical Nifty 50 stock market data.
- Cleaned and processed datasets using Pandas and NumPy for accurate analysis.
- Created visualizations using Matplotlib and Seaborn to identify trends and volatility.
- Applied object-oriented programming principles to build modular and maintainable code.

Study Planner | *Java, XML, Firebase* **February 2026 – March 2026**

- Developed an Android application for managing study schedules, tasks, and exam reminders to improve student productivity.
- Integrated Firebase Authentication and Firestore for secure user management and cloud-based data synchronization.
- Designed an intuitive interface using RecyclerView, Activities, Intents, and Material Design components.
- Enabled students to monitor upcoming exams and daily study goals through a centralized dashboard.

ACHIEVEMENTS

- **Solved 100+ Data Structures & Algorithms problems** on LeetCode.

CERTIFICATIONS

- **Basic Communication Skills Certification** – SIR Institute of English (2022)

LANGUAGES

Hindi (Native), English (Professional Working Proficiency), Gujarati (Native)
