

KEYUR JADA

FULL STACK DEVELOPER | REACT.JS | NODE.JS | JAVA

+91-9313398364 keyurjada1911@gmail.com linkedin.com/in/keyur-jada-98ba19351 github.com/keyur-jada

SUMMARY

MCA student with strong foundations in Full Stack Development, Java, Data Structures & Algorithms, Object-Oriented Programming, DBMS, and SQL. Experienced in building responsive web applications using React.js, Node.js, Express.js, MongoDB, and REST APIs through hands-on projects. Passionate about developing scalable software solutions, learning modern backend technologies, and solving real-world problems.

EDUCATION

M.C.A. 2025 – 2027
Marwadi University, Rajkot Pursuing

B.C.A. 2022 - 2025
Darshan University, Rajkot CGPA: 9.01 / 10

SKILLS

Frontend: HTML, CSS, JavaScript (ES6), React.js, Tailwind CSS

Backend: Node.js, Express.js, Python (Basic), Java, REST APIs, JWT Authentication

Databases: MongoDB, SQLite, Firebase Firestore, PostgreSQL (Learning)

Tools: Android Studio, VS Code, Git, GitHub

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, SDLC

PROJECTS

FounderLink – Startup Team Formation Platform | *React.js, Node.js, Express.js, MongoDB, Material UI* 2026 – Present

- Architected a dual-sided networking platform featuring distinct, role-based interactive dashboards for Founders and Coders.
- Implemented strict routing security and custom navigation locks to prevent unauthorized access and maintain session integrity.
- Designed a premium, responsive glassmorphic UI with dynamic metrics tracking and real-time database polling.
- Developed a scalable RESTful backend API to seamlessly manage authentication, project matching, and application workflows.

CoLive – Smart Shared-Apartment Expense Manager | *MERN Stack, Tailwind, JWT* April 2026 – May 2026

- Developed a full-stack MERN app to automate roommate expense splitting and chore assignments.
- Built a custom financial algorithm to track net balances and settle peer-to-peer debts accurately.
- Implemented a gamified points-based leaderboard to incentivize and track chore completions.
- Engineered a centralized React Context cache, enabling instantaneous tab switching with zero network lag.

Study Planner | *Java, XML, Firebase* February 2026 – March 2026

- Developed an Android application for managing study schedules, tasks, and exam reminders to improve student productivity.
- Implemented task and exam management features with priority levels, due dates, and completion tracking.
- Integrated Firebase Authentication and Firestore for secure user management and cloud-based data synchronization.
- Designed an intuitive interface using RecyclerView, Activities, Intents, and Material Design components.

ACHIEVEMENTS

- Solved 100+ Data Structures & Algorithms problems on LeetCode.
- Maintained CGPA 8.5+ in BCA.

CERTIFICATIONS

- Basic Communication Skills Certification – SIR Institute of English (2022)

LANGUAGES

Hindi (Native), English (Professional Working Proficiency), Gujarati (Native)
